DETAILED ACTION

Claim Objections

The applicant has not amended claim 10 according to the previous office action's objection of the claim. However, claim 10 as currently recited is acceptable and the previous objection to the claim is withdrawn.

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of fabricating a capacitor structure, particularly characterized by patterning a first metal layer, a second metal layer and a polysilicon layer to make an upper electrode atop the dielectric layer, such that the polysilicon layer is surrounded by the first and second metal layers, as recited in independent claims 1 and 10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
